

DANIELSON AND PUTNAM NEWS

DANIELSON

Danielson followers of the wrestling game will have a chance at the Casino this Friday evening to see Al Kaleschitz of Eastford in wrestling practice. It is not to be an admission charge affair and those who like the mat game are being invited by Manager Frank Barber to come over and see the big Eastford boy in action. Wrestling and boxing promises to be popular in Danielson this fall and the appearance here of Kaleschitz is incident to the near approach of the opening of the season. With good weather only a few days more will be required to complete the new state highway to the east sufficiently to allow travel to pass through without detour between Danielson and Providence. Thus on September 15, the day was announced a year ago that the road would be ready, the building of it has been practically accomplished and what has been a dream for years is about to become a reality. Rapid work in being done on the Connecticut and Rhode Island ends of the job to bring the building work to a close and it now seems practically certain that the new highway will be ready for use considerably before October 1. Of course, there may be unforeseen obstacles and bad weather, but given a fair chance the road builders will have advanced their task sufficiently to permit opening the road within a few days.

Travel already is increasing in surprising manner over the new road, many motorists accepting the short detour in order to use this almost air-line route from Providence to Danielson, a distance of only 25 miles.

Other news in this town have posted notices of the wage increase that is coming to cotton mill operatives in the territory. Not all the cotton mills have posted the notices as yet, but are expected to do so considerably prior to October 1, when the increase becomes effective.

PUTNAM

The golf committee of Putnam Country club has arranged for the qualifying round to the governors cup. There will be a medal play 18 hole handicap played September 21, 22 and 23, and cards properly vouchered for are to be left with the green keeper, Clarence Booth. A prize of a half dozen golf balls will be given to the winner of the beaten eight and a half dozen balls will be given to the winner of the second sixteen. The three contests are all to be match play.

The qualifying round for the women members will be a medal play nine hole match to be played September 25, 27 and 28. The best ten will play in the finals of eighteen holes. Any member without a card will have to play at scratch, so players are being urged to put in three cards before the qualifying date to the guidance of the handicap committee.

Two team matches remain to be played this season on the local course. Southbridge will come here September 16th and Woonsocket September 30th.

There was the usual large gathering on Union square Wednesday evening for the weekly band concert under the auspices of the merchants' committee of the chamber of commerce. The music was by the Wauregan band and the organization looked fine in trim, new white uniforms. The demurrer was overruled and Larvin was taken to the county jail, in default of a bond of \$100 for his appearance at the October session of the superior court.

The Thursday half holiday gave the clerks in Putnam stores a chance to attend Woodstock fair. During the races at the fair Wednesday afternoon the track record was twice broken, the fastest time being 2:25 over the third of a mile track. On account of the smallness of the track

Booth played in the first day's rounds Wednesday coming through with 87. His score going out was 45 and he made 42 coming in, lowering his score made was by James Craggan of Wheatley Hills, who played a 74. The highest score was 102. GOVERNOR'S DAY DRAWS CROWD TO KINGSTON FAIR (Special to The Bulletin.)

Kingston, Sept. 14.—Politicians were all out at the fair today and Rhode Island was well represented by both democrats and republicans to get first hand information on the political situation.

Members of his staff, with friends and grounds at noon, and addressed a large gathering at Hazard hall. The governor said:

Gentlemen:—I congratulate the authorities of the Kingston fair on the splendid exhibition which they have arranged, and I am glad to see the improvements each year. It shows the fair is enterprising and progressive. As the governor of Rhode Island it may not be out of place to remind you that this republic, and that it plays an important part in our plan of government.

It is by cooperation of the people, through the elective representatives, that we provide the peace and prosperity of our state and nation, and advance the cause of law and order. As the result of the World war, we are passing through unsettled conditions, which are bound to continue for some time. There never was a period in our history, when there was such unrest as we now see, and all sorts of schemes are being advanced to remedy these conditions.

Struggle between capital and labor has been going forward with the greatest intensity, the railway strike, the steel strike and the textile strike in New England are all due to the unsettled economic conditions brought about by the war. That fine spirit of cooperation, which enabled us to win the great war in history, seems to have been entirely forgotten, and labor and capital are intent on promoting their own interest. But in every industrial dispute is a third party whose rights must be considered and that is the general public. In the past the rights of the general public have been forgotten, ignored. It is now the duty of the public officials to safeguard the rights of an organized people whose interests have been injured to his care. As a result of the coal strike there was a coal shortage in this state and I have appointed a fuel administrator, with a view to averting hardship and suffering and if necessary
